Be Green –
Bring Your
Own Mug!

- January 19 ***The Economics of Happiness*** - A documentary that examines how 'going local' is a powerful strategy to help repair our fractured world –ecosystems, societies and ourselves. (65 min.) Discussion facilitator: Dr. Daya Muralidharan, MTU School of Business and Economics
- February 16 ***Addicted to Plastic*** - Reveals the history and worldwide scope of plastics pollution, investigates its toxicity and explores solutions. (85 min.) Discussion facilitator: Dr. Judith Perlinger, MTU Dept. of Civil & Environmental Engineering
- March 15 ***Blue Gold: World Water Wars*** - This award winning documentary posits that we're moving closer to a world in which water –a seemingly plentiful natural resource—could actually incite war. (90 min.) Discussion facilitator: Dr. Alex Mayer, Michigan Tech Center for Water & Society
- April 19 ***Carbon Nation*** - A documentary movie about climate change SOLUTIONS.(82 min.) Discussion facilitator: Dr. Sarah Green, MTU Dept. of Chemistry
- May 17 ***Food*** - is a local issue, a global issue, and a development, health, political and economic issue. How can we design a food system that ensures health, accessibility and affordability for everyone? (49 min.) Discussion facilitator: Sara Salo, School Food Tour
- June 21 ***Into Eternity*** - explores the mind –boggling scientific and philosophical questions that long-term nuclear waste storage poses. (58 min.) Discussion facilitator: Dr. Wayne Pennington, Dept. of Geological Sciences & Engineering

Cosponsored by Lake Superior Stewardship Initiative, Michigan Tech Center for Water & Society, Keweenaw Unitarian Universalist Fellowship and Keweenaw Land Trust
