

LSSI & PTO partner together to bring you a—

Springtime Garden Party

Thursday, May 30th at 6:00 p.m.

Barkell Elementary Playground , Pollination Garden & Rain Garden

LSSI (Lake Superior Stewardship Initiative) joins the Barkell Elementary PTO to help raise awareness of our playground needs, the new pollination garden growing in the front of the school, and the rain garden in progress over by the parking lot!

Our pollination garden will allow wind and animals to transfer pollen from one flower to another flower, while producing an enjoyable appearance. The area can be used by teachers and students to work and relax in!

The rain garden helps to slow the flow of rainwater that runs off the parking lot and reduces the amount of pollutants that reach the watershed.

The school playground is showing a need for some new and updated equipment! Please come see what improvements can be made! We ask that you bring in Box Tops and Soup Labels to get your name put in a drawing for prizes. Box Tops and Soup Labels help these efforts.

**Sweet treats will
be served!**

Win prizes by bringing in BOX TOPS ,SOUP LABELS, MILK CAPS, and etc. to get your name in a drawing!
