BLUE GOLD

THE WAR OVER YOUR WATER IS ABOUT TO BEGIN

Blue Gold: World Water Wars

Wars of the future will be fought over water as they are over oil today. Corporate giants, private investors, and corrupt governments vie for control of our dwindling supply, prompting protests, lawsuits, and revolutions. Past civilizations have collapsed from poor water management. What lies ahead? (90 min.)

Discussion facilitator:

Dr. Alex Mayer, MI Tech Center for Water & Society. His research focuses on human-environment interactions, and Great Lakes and Mexico.
