

Thank You, Keweenaw Land Trust !!

We would like to acknowledge and thank Evan MacDonald and Pat Toczydlowski of the Keweenaw Land Trust for their active and valuable role in the Lake Superior Stewardship Initiative. The Keweenaw Land Trust works to protect the land, water, and quality of life in the western Upper Peninsula through conservation, stewardship and education. Together, Pat & Evan are working to create the next generation of land stewards, hence their commitment to environmental and outdoor education, and LSSI, as a vehicle to inspire the next generation.

KLT is an LSSI community partner with:

- CJ Sullivan Elementary School to help K-5 students gain a greater appreciation and understanding of coastal wetlands and Great Lakes health at Lightfoot Bay, part of Keweenaw Bay, north of L'Anse
- Hancock Middle School to develop interpretive materials to help the community gain a greater appreciation for wetland ecology and Finnish history at Paavola Wetlands through a community service project.
- E.B. Holman School to engage students in environmental monitoring of forests and wetlands at the Marsin Center & Nature Preserve.

KLT seeks to engage children and the community in environmental stewardship by:

- Bringing inspiring speakers and performers to support and encourage a stewardship ethic.
- Helping to coordinate Reading the Landscape, a unique program for adults to learn from both scientists and artists about the natural landscape and special places of the Keweenaw Peninsula.
- Conducting monthly nature hikes for families to learn about and enjoy the wonder of nature.

KLT staff deserve special recognition and appreciation for their tireless work to promote environmental stewardship for all ages and protect the natural resources of the Keweenaw Peninsula. To read more about KLT's work, visit: <http://www.keweenawlandtrust.org>
